Report on the Medical Inspection of Municipal Schools for the year 1933 - 34.

Medical Inspection in the Municipal Schools was carri out by the Medical Assistants of both the ranges during the afternoons whenever there was no epidemic or other work to be attended to.

In all 9 schools were finished during the year 1933 - They are (1) Old Poor House road school.

(2) Cox Town school.

(3) Cleveland Town School.

(4) Blackpally school..

(5) Jogpalyam Hindu Boys' School.

(6) " Mahomedan Boys' School.

(7) Knoxpet school.

(8) Domlur school.

(9) Shoolay school.

The total number of children examined during the year 909. Of these 473 were found to have some defect or other. The personal cleanliness of the pupils in general was found t very poor and this accounts for the high per-centage of enlar glands and enlarged tonsils and adenoids. Important defects noted were diseases of the teeth, ear, tonsils and defective vision.

Parents were informed about the defects found in their children and they were advised to get their children properly treated at one of the dispensaries. A start was also made t give medicines free of charge to such of the pupils who were very poor and who, due to the illiteracy of their parents, wo not be taken to any of the free dispensaries. This was star rather late in the year.

A statement of the defects found among the pupils is given below:-
